

February 11, 2010

Illinois River Energy, LLC, a majority-owned subsidiary of GTL Resources PLC and the owner of a fuel ethanol plant in Rochelle, Illinois, announced that IRE is donating \$10,000 to help provide relief to victims of the earthquake in Haiti. The contribution will be part of a broader effort by the Renewable Fuels Association to collect contributions from member companies for American Red Cross relief efforts.

“The earthquake in Haiti was a tragedy of extraordinary magnitude that has resulted in unimaginable pain and suffering for hundreds of thousands of innocent Haitians”, said Richard Ruebe, CEO of Illinois River Energy. “It’s heart wrenching and the Board of Managers of Illinois River Energy would like to do what they can to help those in need. We are fortunate to be able to make this contribution and, as a member of the Renewable Fuels Association, are proud to join other renewable fuels companies who are helping one of the poorest countries in the world as it deals with this tragic disaster.”
