richardruebe@gtlresources.com***

It is my pleasure to announce an addition to the senior leadership team of GTL Resources (GTL) and its subsidiary, Illinois River Energy (IRE), to better position both companies for success and growth.

Effective immediately, Jeffrey Lemajeur has joined the GTL and IRE teams as Group Chief Financial Officer (CFO) reporting to me. Bill Williams, our temporary CFO from Tatum Partners, will be ending his assignment with GTL and IRE after a short transition period. Jeff's responsibilities will include overall financial leadership of both GTL and IRE. As a senior member of the GTL and IRE teams, Jeff will also be involved in business development activities helping to advance both companies' growth agendas. Jeff will office at our Itasca, IL headquarters. Reporting to Jeff will be all financial, accounting, and information technology departments within GTL and IRE.

Jeff brings significant financial and business experience to our company. He is a CPA by training and has worked as CFO in several past assignments with publicly listed companies on the New York Stock Exchange and American Stock Exchanges. Jeff is familiar with both UK and US Company financial reporting methods including GAAP, IFRS, and SOX Compliance. Jeff is also a former public accountant with auditing experience from Price Waterhouse.

Please join me in welcoming Jeff to the extended GTL team, and in thanking Bill for his significant contributions to the GTL and IRE businesses during our CFO recruitment period.

Jeff can be reached at:
